Dear Colleague,

As I look forward, and I am always looking forward, 2018 will be a very promising year for research and new clinical applications. Long-established disciplines are finding more translational and precision applications, and young investigators are invigorated by what the future can hold for better health and well-being.

One of the most exciting areas of endeavor is CRISPR. We have a long-standing and universally acknowledged reputation for establishing first-to-market journals in cutting-edge fields, and *The CRISPR Journal* will begin bimonthly publication in 2018. *The CRISPR Journal* will be part of a program dedicated to CRISPR and other gene editing advances – a program that will include journals, books, newsletters, webinars, and summits.

Another important new quarterly journal for 2018 is *Autism in Adulthood*. To date, most research, treatment, and coping strategies are centered on young children and their families. However, the young children are growing up and present new problems, especially as health conditions from advancing age also need to be considered. This journal, under the leadership of Christina Nicolaidis, MD, MPH, will present the problems and discuss productive strategies in anticipation of these needs.

This last bit of news will surprise you. We will publish our first coffee table book, *John Wolberg: Engineer as Artist*. Dr. Wolberg’s work reflects his long experience in the field of engineering coupled with a strong use of color, and designs that may remind you of Kandinsky. I have been captivated by his talent and his works of art. Dr. Wolberg has published three scholarly books previously, and I am thrilled to be publishing this book of his art.

If you did not receive a copy of the *CEO Forum*, which published an interview with me, it is also available on our website. I was delighted to be asked about what led me to begin this company and issues that are on my radar, personally and professionally. I hope you’ll read it.

And always remember

**There is a Mary Ann Liebert at Mary Ann Liebert, Inc. And that makes a difference.**

Yours 24/7,

Biotechnology and Regenerative Medicine

**Advances in Wound Care**  
Chandan K. Sen, PhD  
Vol 7 • 12 issues

The groundbreaking journal providing a forum for the field of tissue injury and repair. The Journal includes up-to-the-minute critical information on acute and chronic wound care, rapid dissemination of information, translational research, and seminal basic science through novel strategies and applications. An Official Publication of the Wound Healing Society.  
Peer-reviewed

**GEN (Genetic Engineering & Biotechnology News)**

*John Sterling*  
Vol 38 • 21 issues

**GEN (Genetic Engineering & Biotechnology News)** is the field’s leading source for breaking news and analysis of the latest developments in life science R&D, from biomarker discovery through drug development, biomanufacturing, and commercialization.

Available on the fully searchable online platform:

- COUNTER 3 compliance
- Unlimited, simultaneous access
- Multiple ways of searching and cross-referencing
- Authenticated mobile access
- 21 issues per year
- Complete archival content: coverage on drug discovery, bioprocessing, OMICS, biobusiness, and translational medicine

**GEN**’s exclusive content includes industry-standard tutorials and technical articles in bioprocessing, assays, and drug discovery; feature articles on emerging technologies; product roundups and regional biofocus articles on biotech hotbeds; as well as reports from key scientific and industry meetings.

Comprised of three unique parts, *Human Gene Therapy* is the only journal focusing on the human aspect of gene therapy, providing end-to-end coverage of the research driving today’s explosion of gene therapy advances. The Official Journal of the European Society of Gene and Cell Therapy and eight other international societies.

**Human Gene Therapy**

*Terence R. Flotte, MD*  
Vol 29 • 22 issues

*Nathalie Cartier, MD, Deputy Editor, Europe*  
*Thierry VandenDriessche, PhD, Deputy Editor, Europe*  
*Barry J. Byrne, MD, PhD, Deputy Editor, U.S.*  
*Mark A. Kay, MD, PhD, Deputy Editor, U.S.*  
*Guangping Gao, PhD, Human Gene Therapy Editor*

The flagship journal, providing 12 issues of original investigations into the transfer and expression of genes and improvements in vector development, delivery systems, and animal models.

*Peer-reviewed*  
[liebertpub.com/hgt](http://liebertpub.com/hgt)

**Human Gene Therapy Methods**

*Hildegard Bünning, PhD, Methods Editor*

Published bimonthly, breaks new ground as the first journal exclusively focused on the applications of gene therapy to product testing and development, and promotes the development of technological advances into therapeutics.

*Peer-reviewed*  
[liebertpub.com/hgt](http://liebertpub.com/hgt)

**Human Gene Therapy Clinical Development**

*James M. Wilson, MD, PhD, Clinical Development Editor*

Published quarterly, provides timely data relevant to regulatory review and commercial development of cell and gene therapy products.

Biotechnology and Regenerative Medicine

Industrial Biotechnology
Larry P. Walker, PhD
Adelheid Kuehnle, PhD
Vol 14 • 6 issues
The leading journal focused on industrial and environmental bioproducts and biobased processes. Original peer-reviewed research covers the science, business, and policy developments of the emerging global bioeconomy, bridging basic R&D with later-stage commercialization. The Official Journal of BIO’s World Congress on Industrial Biotechnology.

Nucleic Acid Therapeutics
Bruce A. Sullenger, PhD
Annemieke Aartsma-Rus, PhD
Graham C. Parker, PhD
Vol 28 • 6 issues
The leading peer-reviewed journal focused on cutting-edge basic research, applications, and drug development using nucleic acids or related compounds to alter gene expression for therapeutic purposes. The Journal examines new approaches for using or modifying nucleic acids including oligonucleotides, gene modification, aptamers, RNA nanoparticles, and ribozymes. The Official Journal of the Oligonucleotide Therapeutics Society.

Rejuvenation Research
Aubrey D.N.J. de Grey, PhD
Vol 21 • 6 issues
The cutting-edge journal covering all aspects of biology relevant to the potential extension of the healthy human lifespan, including stem cells, cloning, gene therapy, and tissue engineering. The Official Journal of the European Society of Preventive, Regenerative and Anti-Aging Medicine (ESAAM) and PYRAMED: World Federation & World Virtual Institute of Preventive & Regenerative Medicine.

Stem Cells and Development
Graham C. Parker, PhD
Vol 27 • 24 issues
Noted for its provocative editorial content and balanced coverage of the therapeutic applications of stem cells, this influential journal offers cutting-edge advances in stem cell research of all tissue types and their potential therapeutic applications. Topics include embryogenesis, organogenesis, and the role of genetic and epigenetic factors in development. An Official Journal of the British Society for Gene and Cell Therapy.
Comprised of three unique parts, *Tissue Engineering* is the premier peer-reviewed journal for groundbreaking research, reviews, and methods on all aspects of tissue growth and regeneration. Multidisciplinary in scope, the Journal provides broad-ranging coverage of this rapidly transforming field that spans bioengineering, stem cell research, government policy, and more. The Official Journal of TERMIS.

**Tissue Engineering**

*Antonios G. Mikos, PhD*  
*Peter C. Johnson, MD*

**Vol 24 • 42 issues**

The flagship, providing 24 issues of in-depth coverage on novel biomaterials, nanobiotechnology, cell transplantation, polymer scaffolding, biohybrid organs, blood substitutes, and much more.

Peer-reviewed
